Cooper,2021-10-16 Summary of Dotcom Secrets When you create and manage your posts ask yourself how you want other people to see you But stay true to who you are Find a balance between those two and create the best version of yourself which will make other people in your industry curious as to who you are and how they can network with you Keep all your social media profiles as well as your website consistent If a user goes on your Facebook and sees you as one type of person and then goes on your Twitter profile and sees someone completely different that will just lead to confusion It is okay to adapt to the different platforms as long as you don't lose the essence of who you are in the process This consistency also applies to the visuals you use which should have the same design basis throughout your digital presence and the usernames you go for which in a perfect world would be the same on every platform However that is virtually impossible nowadays because so many people are online and so many user handles are already taken Still try your best to keep them similar Share your posts from one platform on other platforms For example whenever you post a video on YouTube make a post about it on Twitter That way a Twitter follower of yours can also become a YouTube subscriber and your subscriber count To be continued Here is a Preview of What You Will Get A Full Book Summary An Analysis Fun quizzes Quiz Answers Etc Get a copy of this summary and learn about the book [Traffic Secrets](#) Russell Brunson,2020-05-05 Master the evergreen traffic strategies to fill your website and funnels with your dream customers in this timeless book from the 100M entrepreneur and co founder of the software company ClickFunnels The biggest problem that most entrepreneurs have isn't creating an amazing product or service it's getting their future customers to discover that they even exist Every year tens of thousands of businesses start and fail because the entrepreneurs don't understand this one essential skill the art and science of getting traffic or people to find you And that is a tragedy Traffic Secrets was written to help you get your message out to the world about your products and services I strongly believe that entrepreneurs are the only people on earth who can actually change the world It won't happen in government and I don't think it will happen in schools It'll happen because of entrepreneurs like you who are crazy enough to build products and services that will actually change the world It'll happen because we are crazy enough to risk everything to try and make that dream become a reality To all the entrepreneurs who fail in their first year of business what a tragedy it is when the one thing they risked everything for never fully gets to see the light of day

Waiting for people to come to you is not a strategy Understanding exactly WHO your dream customer is discovering where they re congregating and throwing out the hooks that will grab their attention to pull them into your funnels where you can tell them a story and make them an offer is the strategy That s the big secret Traffic is just people This book will help you find YOUR people so you can focus on changing their world with the products and services that you sell
