Double Passage The Lives Of Caribbean Migrants Abroad And Back Home:

Double Passage George Gmelch,1992 Oral histories reveal the attitudes and emotions associated with emigration and return

Tourism and Migration C.M. Hall,A.M. Williams,2013-06-29 The origins of this book lie in a project of the International Geographical Union Study Group on the Geography of Sustainable Tourism The theme Tourism and migration reflects the growing interests of tourism geographers in common with other geographers and social scientists to reach across traditional cleavages in the way research is undertaken and knowledge is formed In this instance the aim was to connect the largely discrete research domains of tourism studies and migration This was informed not only by awareness of the limitations of disciplinary barriers but also by the growing need to respond to the emergence of new forms of mobility and circulation which fitted uncomfortably into many of the analytical categories of tourism and migration studies The extension of property rights across boundaries e g second homes vacation homes and time shares space time convergence changing approaches to work and leisure and structural changes in economies and the demographic profiles of societies are only some of the factors which have generated these new forms of mobility These serve to bind places and individuals in new and challenging ways with implication for both movers and stayers The various chapters of this volume bring together a range of dimensions and locations within which to study the relationships between tourism and migration

Return Migration of the Next Generations Dennis Conway,Robert B. Potter,2009 Return Migration of the Next Generations looks at global migration patterns of the one and a half and second generations young contract workers and prolonged sojourners and examines their return home and its consequences

Migration and Transnationalism Helen Lee,Steve Tupai Francis,2009-08-01 Pacific Islanders have engaged in transnational practices since their first settlement of the many islands in the region As they moved beyond the Pacific and settled in nations such as New Zealand the U S and Australia these practices intensified and over time have profoundly shaped both home and diasporic communities This edited volume begins with a detailed account of this history and the key issues in Pacific migration and transnationalism today The papers that follow present a range of case studies that maintain this focus on both historical and contemporary perspectives Each of the contributors goes beyond a narrowly economic focus to present the human face of migration and transnationalism exploring questions of cultural values and identity transformations in kinship intergenerational change and the impact on home communities Pacific migration and transnationalism are addressed in this volume in the context of increasing globalisation and growing concerns about the future social political and economic security of the Pacific region As the case studies presented here show the future of the Pacific depends in many ways on the ties diasporic Islanders maintain with their homelands

Links to the Diasporic Homeland Russell King,Anastasia Christou,Peggy Levitt,2015-10-14 This book examines return mobilities to and from ancestral homelands of the second generation and beyond It presents cutting edge empirical research framed within the mobilities transnational and return migration diaspora paradigms on a trans local and

global scale The book is unique in presenting not only a variety of return movements including short term visits and longer term return migrations but also circulatory movements within transnational social fields while engaging with notions of home belonging identity and generation The individual contributions range widely over different ethnic national regional and global settings including Europe North America the Caribbean the Gulf and Africa The result is a remapping of the conceptualisation of diaspora and of the role of successive generations in the diasporic experience as well as a nuancing of the concepts of return migration and transnationalism by their extension to the second and subsequent generations of immigrants This book was originally published as a special issue of *Mobilities* Double Passage George Gmelch,1992 Oral histories reveal the attitudes and emotions associated with emigration and return *Migrant Workers in Asia* Nicole Constable,2013-09-13 This book provides rich and provocative comparative studies of South and Southeast Asian domestic workers who migrate to other parts of Asia These studies range from Hong Kong Macau and Singapore to Yemen Israel Jordan and the UAE Conceptually and methodologically this book challenges us to move beyond established regional divides and proposes new ways of mapping inter Asian connections The authors view migrant workers within a wider spatial context of intersecting groups and trajectories through time Keenly attentive to the importance of migrants of diverse nationalities who have labored in multiple regions this book examines intimate connections and distant divides in the social lives and politics of migrant workers across time and space Collectively the authors propose new themes new comparative frameworks and new methodologies for considering vastly different degrees of social support structures and political activism and the varied meanings of citizenship and state responsibility in sending and receiving countries They highlight the importance of formal institutions that shape and promote migratory labor advocacy for workers or curtail workers rights as well as the social identities and cultural practices and beliefs that may be linked to new inter ethnic social and political affiliations that traverse and also transform inter Asian spaces and pathways to mobility This book was published as a special issue of *Critical Asian Studies* **Work and Migration** Karen Fog Olwig,Ninna Nyberg Sorensen,2003-08-27 Using case studies from those who have moved either transnationally or internally within their own country international contributors offer various definitions of what it means to make a living on the move **Young People, Social Capital and Ethnic Identity** Tracey Reynolds,2013-10-18 Social capital and ethnicity are crucial to young people s understandings of their social world The strong bonding networks often assumed in ethnic groups suggest that individuals may prefer to be bonded to each other according to shared socio cultural factors such as shared histories memories language customs traditions and values However bridging forms of social capital allow new understandings of ethnic identities to emerge and which involve dynamic and complex social processes that are continually changing and evolving according to time location and context This book explores the ways in which the concepts of social capital and ethnicity play a central role in young people s relationships participation in wider social networks and the construction of identities Researchers and scholars working in the fields of

children and youth studies education families social and racial and ethnic studies offer differing accounts of the ways in which social capital operates in young people's lives across diverse social settings and ethnic groups This edited book is timely and significant given the public interest of researchers academics politicians and policymakers working in areas of youth and community work race relations and cultural diversity This book was published as a special issue of Ethnic and Racial Studies **Key Concepts in Development Geography** Rob Potter,Dennis Conway,Ruth Evans,Sally
