D., 2013-10-30 Science and mysticism merge in this stunning new paradigm It is Volume 1 in the sensational TOUCHING GOD S TOE series Western science explores cosmology China s I Ching follows the Tao They merge in modern DNA superstrings gravitons fractals and chaos theory Some would call this book sci fi but the author calls it more like psi phy Why Because you can traverse what it describes with psi ability and you can also test it with the laws of physics Thus psi phy Dr Katya Walter guides you through the patterns of chaos theory into mystic beauty This book heals the 2 500 year split between body and mind Called in Germany a philosopher queen of the global village Dr Katya Walter embraces East and West to unite our planet She merges left brain accuracy with right brain vision Scientific truth speaks in a clear voice of wisdom What if our universe is really a giant double bubble The laws of physics allow it and it solves many puzzles in current science Regard the two huge bubbles of our double bubble universe They are reciprocal mirror twins Our familiar bubble above the Planck level has 3D space and the arrow of time or what we call spacetime It also has matter energy and the known pole of gravity Many diverse mini minds like ours for instance roam this gracious 3D space in this upper bubble But that other bubble hidden below the Planck level That reversing mirror twin It has 3D time and the arrow of space call it timespace plus tachyonic energy and the opposite pole of gravitation that is unknown to current physics A single giant mind dwells down in the lower bubble It is powered by tachyons zipping in a vast energetic cloud throughout 3D time That great unified mind and our tiny minds up here together assemble the continual chaotic flow of events that we experience These events are subject to abrupt seemingly random changes but they emerge in a nonlinear progression that is created by mind as much as matter The double bubble shape is caused by a Lorenz attractor effect that is oscillating between the two bubbles The arrow of time in the upper bubble and the arrow of space in the lower bubble bond at the Planck level interface to make a polarized 1D axis that stretches across both bubbles Due to scaling the two bubbles can even fit inside each other It is as if the white glove for your right hand turns inside out to become suddenly the black glove for your left hand This turns our universe into a Lorenz oscillator caught in a Klein bottle Thus in this TOE or Theory of Everything we live in a giant Klein bottle universe that is built by nonlinear chaos and influenced by mind itself including yours ____ *Double Bubble Universe* is Volume 1 in the TOUCHING GOD S TOE series It has 17 chapters and 106 sections It includes a Series Summary Bibliography and Reviews It has over 40 images graphics and charts The black white PRINT version is portable electronic free easy on the eye lendable impact proof scribble able and dog earable The color EBOOK version also has text that is completely searchable and an interactive table of contents It is hand edited to provide 35 active e links that amplify the data plus over 40 color images graphics and charts that allow greater distinctions in data and symbolic imagery as well as offering more aesthetic appeal Get both *Official Gazette of the United States Patent and Trademark Office* ,2001 **Laboratory Directed Research and Development** Lawrence

The Universe Is Alive and Well Katya Walter Ph. D.,2010-12 Our universe is a living system a giant organism that stretches farther and deeper than we can see It extends below the Planck level the smallest scale of space and time that physics can currently measure It marks our current known limit to physics quantum physics that is There is another kind of physics metaphysics that can see farther via remote viewing it can look below the Planck level into the domain below This vision shows that our universe is really a giant double bubble and the two bubbles are really symbiotic twins in a huge living system Our whole universe is a giant organism Our universe is alive It was built on a master code that is precursor to our own genetic code Like DNA it is fractal and failsafe Like DNA it turns a basic foursome into a pair of polarized pairs to grow life The master code uses the four primals of space time matter and energy DNA uses four bases of thymine cytosine adenine and guanine Both codes sort into 64 pairs of polarized triplets The genetic code sets the double spiral of DNA in each cell The master code sets gravitons awhirl in each primal cell at the Planck level which continually update and refresh the living body of our universe Our universe has a mind as well as body In the lower domain is the vast energetic cloud of a single giant mind powered by tachyon energy It and our tiny minds work together to shape our lives and even the evolution of this universe The amazing fractal master code springs from a fractal pattern that the infant universe worked out while it was still at tiny Planck level size It had to stumble upon this master plan through trial and error before it could inflate to maturity This book tells the story of how that happened and how spacetime was built *Some Bubble Universe* Dong Dong,2019 *Double Bubble*
