

UNIT 2: ADD & SUBTRACT		LESSON 2.4 Add with Doubles Strategy	
	Add using the doubles strategy (2+2, 4+4).		<input type="checkbox"/> Lesson 2.4 teaching slides <input type="checkbox"/> Lesson 2.4 copies <input type="checkbox"/> Bingo chips or counters <input type="checkbox"/> Spinners <input type="checkbox"/> Dominos
	<u>Around the World:</u> Have students sit at their desks or in a circle. You choose 1 student to start and they will stand with the student next to them. You give a counting-on math problem. The first student to shout out the correct answer wins and moves on to the next student. The goal is to get all the way back to their seat, beating all other students. You may choose to tally each win every student gets so that you can see who had the most at the end.		
	<u>Domino Subitizing:</u> Students will see a domino (6 & 6) for 3-5 seconds. The goal here is for students to see and count one side and double it for the other side.		
	Discuss what students know about doubles. Talk about dominos in the real world. Introduce doubles anchor chart and doubles song. <u>Adding Up Rainforest Layers:</u> Students will solve the doubles fact and then look for the answer within the image on the board. Whenever the answer is, that is the layer in which the animal lives in the rainforest. Students will glue the animal under the correct flap.		
	<u>Sneaky Sums:</u> Partner students up, giving them each around 10 counters or bingo chips of one color, a spinner and a Sneaky Sums board. Students will spin the spinner and DOUBLE the number. They look for the sum on the board and if it's available, they cover it with their chip. If not, they lose the turn. The first person to get 5 in a row wins!		
	<u>Doubles on a Vine:</u> Print these on green paper or have students color the leaves green. Students will write doubles facts from 1-10 on each leaf. They will cut out and glue the leaves to a long strip of paper (could be a long piece of construction paper or a sentence strip) to create a vine!		
the missing addends and/or sums on each doubles fact.			
ATTENTION: Domino Doubles – Use dominos with equal parts to write doubles facts. You can also draw the domino dots for each fact.			
EXTENSION: Extending Doubles – Use the doubles strategy to solve double-digit addition problems.
