## **Exciting Ks1 Creative Curriculum Topics:**

*Creative Curriculum KS1* Lois Johnson, 2012-08-10 Creative Curriculum teaching across the curriculum using a story is a flexible series of resources aimed at encouraging a more creative and cross curricular approach to teaching. By putting a story at the centre of learning a stimulus is provided to a range of learning opportunities thus increasing children's understanding and adding fun and enjoyment to the lesson. Teachers are provided with practical ways to incorporate the story in a range of cross curricular activities. *How High is the Sky* in the Creative Curriculum series is aimed at KS1 children and contains a rhyming story about a caterpillar's quest to find an answer to his question. It is a story about self confidence, change, growth and achievement. The book contains fully illustrated story units covering Literacy, Numeracy, Science, PSHE, Art and Design and Music, Dance and Drama Worksheets, Planning Sheets. A set of illustrations without text for the children to tell the story in their own words.

*Creative Teaching: Mathematics in the Primary Classroom* Mary Briggs, Sue Davis, 2014-09-19 This stimulating text shows how primary mathematics can be creative, exciting and enjoyable. Offering teachers a dynamic and different perspective, it enables them to see and teach in creative ways that will develop their pupils' mathematical thinking potential. *Creative Teaching: Mathematics in the Primary Classroom* encourages students, trainees and practicing teachers to envision and develop a classroom where children can take risks, enjoy and experiment with mathematical thinking and discover and pursue their interests and talents in an imaginative yet purposeful way. This second edition contains key updates to reflect the changes to the primary curriculum and includes new sections on specialist teaching, parental engagement and approaches to homework, creative classroom environments, working walls, displays and outdoor settings, links to assessment, speaking, listening and learning theory, use of media, film, news and stories for creative learning, cross curricular work. Featuring reflective tasks in every chapter, this book will prove essential and inspiring reading for all trainee and practising teachers looking to develop their creative practice. Aimed at primary and early years trainee teachers, NQTs and experienced teachers, this is a timely publication for teachers and schools seeking to broaden their maths curriculum, making it more creative and appealing to young minds.

*Developing Creativity in the Primary School* Jill Jesson, 2012-09-16 This informative book brings together theory, research and practice examples of creativity in primary schools, providing a scholarly yet accessible introduction. The book offers an overview for teachers looking for a concise guide to current thinking about creativity, particularly if your school is thinking of introducing or extending its practice. The book considers recent developments in the creative curriculum and techniques embedded in approaches such as Philosophy for Children, Mantle of the Expert and Enterprise Education. Ideas for personalising teaching and creating independent and motivated learners are incorporated. Other key features of the book include examination of the major theories of creativity, how to develop your own creativity as a teacher, focus on the difference between developing group and individual creativity, innovative ideas for creativity in subject teaching, practical examples and creative challenges throughout. The book draws on

the author's many years of experience of working with children in schools working on Creative Partnerships and Higher Education in the Arts HEARTS projects and ideas developed through working in initial teacher training This book is essential reading for students in the early stages of their teacher training course as well as for practising teachers looking for innovative ideas and guidance on developing creativity in themselves and their classrooms This is an interesting book which explores theory practice and policy of creativity in the primary classroom Jill Jesson links five key creative behaviours drawn together initially by then policymakers QCA with what she identifies as six areas of creative endeavour Primary teachers committed to developing a creative curriculum will find much material in this lively book that supports their personal and professional creativity as well as suggestions for classroom practice in developing individual and group work Professor Anna Craft University of Exeter and The Open University UK This is a compulsory read for all those interested in developing the creative potential of young people in primary schools It includes a useful overview of previous thinking on creativity and makes a convincing case for its importance across the curriculum Above all this book is jam packed with practical ideas Whether you are interested in creative approaches to maths or modern languages developing group or personal creativity or the challenges of assessing creative endeavour you will find a host of strategies that have been tried and tested in the classroom Hilary Hodgson Director Ormiston Trust
