Rhetorics of Value Corinne A. Kratz, 2025-03-28 In *Rhetorics of Value* Corinne A Kratz explores how exhibition design creates and conveys values that have the potential to touch educate and engage visitors Drawing on case studies from the Victoria and Albert Museum museums in South Africa and Kenya a Hawaiian resort hotel and the Smithsonian s National Museum of African American History and Culture among others Kratz shows how exhibits help shape and narrate cultural categories values and histories while provoking questions and evoking memories and experiences She crosses contexts to consider ethnographic history and art exhibits in national and community museums and other display settings Through these examples Kratz traces how exhibition designers combine objects texts images lighting audio space and narratives to craft a complex multilayered communicative form that visitors experience as they move through museums By investigating the relationship between audience reception and exhibition design strategies Kratz contends that through design exhibits can shape the ways we know the stories we tell and our contours of meaning and engagement

The Othering Museum Carrie Westwater, 2024-05-23 The term othering refers to a persistent Us and Them dynamic between museums and their participating public To reframe this historically paternalistic subject positioning over the last decade or so many museums have made firm attempts to address this by attempting to move from being providers of engagements to facilitating access to cultural right by embedding co curatorial techniques and participation Through the analysis of three co curated participatory case studies this book examines how power performs in co curatorial museum practice It discusses how it is not just how the participatory process is enacted that is necessary to create this shift to a more socially just profile but systemic pressures of

vulnerability and responsibility found in the political economy of the museum and its participants This book will chart how this dynamic performs in museums when working with different groups of people such as volunteers community participants and professional artists presented with differing levels of co curatorial decision making The book further investigates whether performances of power are relational to who the participants are how the processes of participation are constructed and where the participation takes place what language is used when conducting these relationships and what the funded institutional responsibilities do to the co curators the community and museum staff when traditional co curation and co curation in transition to non selective curation is applied Grounding this discussion is the development of this test method of non selective curation which further illuminates some of these challenges and aims to successfully mitigate them through a radically open and inclusive approach to co curation **The Journal of American Folklore** ,2008 Heritage, Museums

and Galleries Gerard Corsane,2005 This reader provides a starting point and introductory resource for anyone wishing to engage with certain key issues relating to the heritage museums and galleries sector *Journal of Folklore Research* ,1999
