The Routledge Companion to Ecstatic Experience in the Ancient World Diana Stein, Sarah Kielt Costello, Karen Polinger Foster, 2021-12-30 For millennia people have universally engaged in ecstatic experience as an essential element in ritual practice spiritual belief and cultural identification This volume offers the first systematic investigation of its myriad roles and manifestations in the ancient Mediterranean and Near East The twenty nine contributors represent a broad range of scholarly disciplines seeking answers to fundamental questions regarding the patterns and commonalities of this vital aspect of the past How was the experience construed and by what means was it achieved Who was involved Where and when were rites carried out How was it reflected in pictorial arts and written records What was its relation to other components of the sociocultural compact In proposing responses the authors draw upon a wealth of original research in many fields

generating new perspectives and thought provoking often surprising conclusions With their abundant cross cultural and cross temporal references the chapters mutually enrich each other and collectively deepen our understanding of ecstatic phenomena thousands of years ago Another noteworthy feature of the book is its illustrative content including commissioned reconstructions of ecstatic scenarios and pairings of works of Bronze Age and modern psychedelic art Scholars students and other readers interested in antiquity comparative religion and the social and cognitive sciences will find much to explore in the fascinating realm of ecstatic experience in the ancient world *Experience Humanities Volume 2* Roy Matthews, DeWitt Platt, Thomas F.
