Expert Survey of Public School System, Boise, Idaho, 1913 (Classic Reprint) Edward C. Elliott, 2018-02-17 Excerpt from Expert Survey of Public School System Boise Idaho 1913 Third the development of the course of study in the high school has no upper limits except those which are dictated by the ability of the city to equip advanced courses In agri culture in mechanics the character of work now under way is such as to suggest strongly the desirability of a conserva tive but steady extension of the course into the field commonly thought of as belonging to the college There is no legitimate reason why a funy developed city school system should not offer to adults in the community advanced courses in science and letters There is no reason why students who want more than four years of training should not get five years The Boise high school could carry on such advanced work without serious additional expenditure Such advanced courses are the natural sequel to the comprehensive organiza tion already developed About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Public Sentiments Glenn Hendler, 2003-04-03 In this book Glenn Hendler explores what he calls the logic of sympathy in novels by Walt Whitman Louisa May Alcott T S Arthur Martin Delany Horatio Alger Fanny Fern Nathaniel Parker Willis Henry James Mark Twain and William Dean Howells For these nineteenth century writers he argues sympathetic identification was not strictly an individual feminizing and private feeling but the quintessentially public sentiment a transformative emotion with the power to shape social institutions and political movements Uniting current scholarship on gender in nineteenth century American culture with historical and theoretical debates on the definition of the public sphere in the period Hendler shows how novels taught diverse readers to feel right to experience their identities as male or female black or white middle or working class through a sentimental emotionally based structure of feeling He links novels with such wide ranging cultural and political discourses as the temperance movement feminism and black nationalism Public Sentiments demonstrates that whether published for commercial reasons or for higher moral and aesthetic purposes the nineteenth century American novel was conceived of as a public instrument designed to play in a sentimental key

Annual Report of the Surgeon General of the Public Health Service of the United States UNKNOWN. AUTHOR, 2018-02-14 Excerpt from Annual Report of the Surgeon General of the Public Health Service of the United States For the Fiscal Year 1922 Bubonic plague is perhaps the most widespread of all diseases of a pestilential character in the world

except smallpox In the early part of the present fiscal year this disease threatened to become epidemic in the southern part of the United States particularly in cities of the Gulf coast but prompt and radical measures applied to local conditions in Galveston Beaumont and Pensacola where the disease had gained a foothold and the continuation of the measures already in force in New Orleans served to avert its spread Yellow fever foci were reported during the year in widely scattered areas on both the eastern and western coasts of Mexico the eastern coast of Central America and certain portions of the Atlantic and Pacific coasts of South America In spite of close and active commercial relations with infected ports and the occurrence of five cases of this disease on ships arriving at domestic ports situated in infectible territory the disease was successfully excluded from our country About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Political Parties and Electoral Clientelism

Sergiu Gherghina, Miroslav Nemčok, 2023-09-26 Contemporary political parties often use state resources to win elections In this context electoral clientelism evolved from the straightforward vote buying to sophisticated exchanges in which the relationship between patrons parties or candidates and clients voters is sometimes difficult to grasp We address the question how do the distributive politics and electoral clientelism interact how these forms of interactions differ across various context and what implications they bring for the functioning of political systems The special issue provides theoretical methodological and empirical contributions to the burgeoning literature about the multi faceted feature of electoral clientelism It unfolds the complex relationship between distributive politics and clientelism and conceptualizes electoral

clientelism as a dynamic process that occurs through different sequences It enriches the methodological tools aimed at investigating electoral clientelism Finally the special issue approaches clientelism from several perspectives and brings together substantive empirical evidence about the varieties of clientelism around the world Reprints ,1924 **A Study of the Teaching of Mechanical Drawing in the Public Schools, Colleges and Universities of Ohio** Carl Lars Svensen,1922 **Review of Marketing 1981** Ben M.
