Existential Sentences Structure Routledge Linguistics:

Existential Sentences Michael Lumsden, 2014-02-03 What is the relationship between the structure of existential sentences and their meaning How do hearers interpret existential sentences using pragmatic assumptions This study attempts to account for the relationship between the structure of existential sentences ES and their meaning The study of ES has received a great deal of attention because the construction has complex syntactic properties is associated with restrictions of a semantic nature and provides an interesting area for investigation at a pragmatic level **Existential**

Sentences in English (RLE Linguistics D: English Linguistics) Gary L. Milsark, 2014-01-10 In order to bring some minimal amount of order to the chaos that almost inevitably attends the use of the word existential in a linguistic investigation the author reserved the term existential sentence ES to designate all and only those English sentences in which there appears an occurrence of the unstressed non deictic existential there Thus the term will be used as a characterisation of a class of syntactic objects not as a semantic description With ES sentences including formations such as There were several people talking and There ensued a riot perhaps nowhere else do we find so clearly displayed the complexity and subtlety of the syntactic and semantic interactions which determine the nature of human language **Structures,**

Syntactic Computations and Acquisition Adriana Belletti, 2023-09-29 This book collects some of the most significant articles by Adriana Belletti published over the last ten years or so offering readers a useful tool to see the mutual enrichment between linguistic theory and experimental studies on modes of language acquisition through her work The volume explores domains of theoretical morphosyntax in the generative tradition and theoretically guided studies on language acquisition An introduction specific to this volume contextualizes these contributions within ongoing developments in the field Part I presents studies inspired by the illuminating interchange between linguistic theory and experimentation in the domain of language acquisition leading to the formulation of explicit research questions tested experimentally and guiding in the proper interpretation of the results Part II offers refined detailed theoretical analyses of domains in which peripheral positions in the clause structures are crucially involved to express discourse contents in sometimes not standard ways during development Demonstrating how refined linguistic analyses play a crucial role in interpreting the peculiar shape of developmental data this book will be of interest to scholars in syntax language acquisition and theoretical linguistics *Verbal Projections*

Hero Janßen, 2011-04-20 This collection of articles examines lexical and grammatical aspects of verbal elements and phrases in the context of recent generative research General questions concern definitions of grammatical categories classifications of auxiliaries and particles as functional categories and problems of economy Lexical matters range from affixation and category change participles gerunds to semantic representations of specific verb classes possessive phrasal and intransitive verbs The syntactic analyses focus on positional arrangements of aspectual and verbal units V2 Verb Raising The data are mainly drawn from English perspectives on other Germanic languages are included Negative Inversion, Social Meaning,

and Gricean Implicature William Salmon, 2020-06-08 Relying on a wealth of new data this book argues that long standing puzzles of Negative Inversion NI syntax are not puzzles at all when viewed through the lenses of Gricean pragmatics and Labovian sociolinguistics Focusing on sentences such as Can t nobody lift that rock in African American Anglo and Chicano Englishes in Texas the book provides tidy solutions to problems such as the NI s relationship to its non inverted counterpart its relationship to existential there sentences to modal existential sentences to the definiteness effects surrounding its NP subject the emphatic meaning with which it seems to be associated and more The book argues that such issues which have been explored in the syntax and semantics literature since the late 1960s are handled more fruitfully via Gricean reasoning demographics of use and a simple semantics As such the book argues that NI can be freed from the syntactico semantic straitjacket into which it has often been forced It also demonstrates ways in which pragmatic and sociolinguistic thought can be brought together to inform larger linguistic analyses

Multiple Perspectives in Linguistic Research on Baltic Languages Ineta Dabašinskienė, Nicole Nau, Aurelia Usoniene, 2012-01-17 The ten contributions to this volume present original research on grammar and discourse in modern Lithuanian and Latvian They reflect the diversity of approaches in linguistic research on Baltic languages that has developed in recent years after a period where these languages were studied almost exclusively from the perspective of historical comparative linguistics Current research perspectives include among others perspectives from discourse analysis sociolinguistics language acquisition research corpus linguistics contrastive studies and linguistic typology The studies in this volume explore new ways of describing the system and use of Latvian or Lithuanian from a synchronic non normative point of view They focus on grammatical categories and constructions modality evidentiality case existential clauses grammatical characteristics of lexical classes reflexive verbs numerals the characteristics of certain forms of discourse academic discourse food discourse and the effects of an ideology of correct language on language users

Existential Sentences in English and Lithuanian Violeta Kalėdaitė, 2002 Existential sentences in the world s languages tend to develop specific morphological syntactic and lexical properties The present work offers a contrastive functional analysis of these constructions in two typologically unrelated languages English and Lithuanian The study focuses on the relationship between the syntactic structure of different existential sentence types and their meaning it also explores the semantic and pragmatic parameters relevant to the structural differences within a single language and across the two compared languages Most importantly a new definition of the existential sentence which takes into account both semantic and syntactic criteria is proposed for Lithuanian The findings are drawn on the basis of the corpus and highlight conspicuous differences in the linguistic representations of the construction in the two languages With respect to Lithuanian communicative word order variations language specific structures the BKI and the impersonal passive and a wider use of lexical verbs present an area of special interest Contents The English existential definition and classification General characteristics structural patterns Semantic types Word order The interpretation of there Verbs in the construction

The definiteness restriction Lithuanian existentials the semantics of the basic sentence patterns Types of be existentials Communicative types of existential sentences Semantic classes of acceptable lexical verbs Definite and indefinite subject NPs Language specific existential structures

Learner Corpora: Construction and Explorations in Chinese and Related Languages Howard Hao-Jan Chen, Keiko Mochizuki, Hongyin Tao, 2023-04-02 This edited book reflects the state of the art in learner corpus and related approaches to Chinese as a second language CSL CSL as a field has flourished in the past few decades due to the increasingly important role of the Chinese language at the world stage yet studies of Chinese as a second language based on learner corpora have been less well developed due to the limited availability of data and lack of theoretical insights This book represents the latest research in this area by 1 assembling a large group of active researchers from multiple international research communities USA China Hong Kong Macau Japan Taiwan and France 2 discussing the latest resources and technologies in Chinese and other Asian languages learner corpora and corpus building 3 basing Chinese as a second language studies on data from learners of Chinese with a wide range of first language backgrounds English Japanese Korean French among others and 4 integrating corpus methods with a wide range of related methods in allied fields language acquisition usage based linguistics psycholinguistics and neurolinguistics This comprehensive collection is indispensable for anyone who is interested in corpus approaches to CSL and Chinese applied language studies in general

Non-verbal Predication in the World's Languages Pier Marco Bertinetto, Luca Ciucci, Denis Creissels, 2025-08-18 The notion of predication is usually associated with the lexical class of verbs However the predicate function may also be expressed by Noun Adjective Adverb Quantifier Phrases a John is a doctor b The man is old c The boys are in the garden d Sam's friends are many Natural languages do with respect to non verbal predication what they are expected to do in any compartment of grammar they sharply diverge in their behavior This book offers a wide typological overview of how languages deal with non verbal predication henceforth NVP After the pioneering works by Hengeveld 1992 and Stassen 1997 no other work has

attempted to provide a comprehensive overview of this pervasive syntactic phenomenon Hence the need for this book The introductory chapter highlights the main features to be considered the lexical and morphosyntactic nature of the predicate the morphological expression of NVP the semantic types of NVP The bulk of the book consists of a collection of papers written by well known specialists targeting different languages or language families thus offering a rich array of typological data This book will be of interest to typologists syntacticians of any theoretical creed and students of linguistics at large
