Fault Lines Views Across Haitis Divide:

Fault Lines Beverly Bell, 2013-05-17 Beverly Bell an activist and award winning writer has dedicated her life to working for democracy women's rights and economic justice in Haiti and elsewhere Since the 7.0 magnitude earthquake of January 12 2010 that struck the island nation killing more than a quarter million people and leaving another two million Haitians homeless Bell has spent much of her time in Haiti Her new book *Fault Lines* is a searing account of the first year after the earthquake Bell explores how strong communities and an age old gift culture have helped Haitians survive in the wake of an unimaginable disaster one that only compounded the preexisting social and economic distress of their society The book examines the history that caused such astronomical destruction It also draws in theories of resistance and social movements to scrutinize grassroots organizing for a more just and equitable country *Fault Lines* offers rich perspectives rarely seen outside Haiti Readers accompany the author through displaced persons camps shantytowns and rural villages where they get a view that defies the stereotype of Haiti as a lost nation of victims Street journals impart the author's intimate knowledge of the country which spans thirty five years *Fault Lines* also combines excerpts of more than one hundred interviews with Haitians historical and political analysis and investigative journalism *Fault Lines* includes twelve photos from the year following the 2010 earthquake Bell also investigates and critiques U.S. foreign policy emergency aid standard development approaches the role of nongovernmental organizations and disaster capitalism Woven through the text are comparisons to the crisis and cultural resistance in Bell's home city of New Orleans when the levees broke in the wake of Hurricane Katrina Ultimately a tale of hope *Fault Lines* will give readers a new understanding of daily life structural challenges and collective dreams in one of the world's most complex countries

Writing on the Fault Line Martin Munro, 2014 Marking five years since the devastating Haitian earthquake this important book explores the impact of the catastrophe on the literature of Haiti

Production of Disaster and Recovery in Post-Earthquake Haiti Juliana Svistova, Loretta Pyles, 2018-02-21 Natural disasters have long been seen as naturally generated events but as scientific technological and social knowledge of disasters has become more sophisticated the part that people and systems play in disaster events has become more apparent *Production of Disaster and Recovery in Post Earthquake Haiti* demonstrates how social processes impact disasters as they unfold through the distribution of power and resources the use of discourses and images of disaster and the economic and social systems and relations which underlie affected communities The authors show how these processes played out in post earthquake Haiti to set in motion the mechanics of the disaster industrial complex to reproduce disasters and recovery rather than bring sustainable change The book reveals that disaster and recovery rhetoric helped create fertile conditions for neoliberal disaster governance militarized and digital humanitarianism non profiteering and disaster opportunism to flourish while further disenfranchising marginalized populations However the Haiti earthquake as is the case with all disaster sites was ripe with mutual aid community building and collective action all of which further local resilience The authors seek to re

construct dominant discourses policies and practices to advance equitable participatory partnerships with local community actors and propose a praxis for a people's recovery as an action oriented framework for resisting the transnational disaster industrial machinery The authors argue for new synergies in policymaking and program development that can respond to emergencies and plan for true long term sustainable development after disasters that focuses as much on humans and the natural world as it does on economic progress Production of Disaster and Recovery in Post Earthquake Haiti will be of great interest to students and scholars of disaster studies humanitarian studies development studies Haitian studies geography and environmental studies as well as to non governmental organizations humanitarians and policymakers **The Haiti**

Exception Alessandra Benedicty-Kokken, Kaiama L. Glover, Mark Schuller, Jhon Picard Byron, 2016 This collection of essays considers the ways and extent of Haiti's exceptionalisation its perception in multiple arenas as definitively unique with respect not only to the countries of the North Atlantic but also to the rest of the Americas Painted at once as repulsive and attractive abject and resilient singular and exemplary Haiti has long been framed discursively by an extraordinary epistemological ambivalence The nation has served at once as cautionary tale model for humanitarian aid and development projects and point of origin for general theorizing of the so called Third World What to make of this dialectic of exemplarity and alterity How to pull apart this multivalent narrative so as to examine its constituent parts The contributors to The Haiti Exception take up these and other such questions from a variety of methodological and disciplinary perspectives among which Africana Studies anthrohistory art history Black Studies Caribbean Studies education ethnology Jewish Studies literary studies performance studies and urban studies As they revise and interrogate their respective praxes they accept the challenge of thinking about the particular stakes of and motivations for their own commitment to Haiti Engaging in the decidedly risky anthropological practice of reflexivity the scholars activists and other social actors gathered here consider their own often fraught role in constructing Haiti in and as narrative **Caribbean Military Encounters** Shalini Puri, Lara Putnam, 2017-05-19 This book provides a much needed study of the lived experience of militarization in the Caribbean from 1914 to the present It offers an alternative to policy and security studies by drawing on the perspectives of literary and cultural studies history anthropology ethnography music and visual art Rather than opposing or defending militarization per se this book focuses attention on how Caribbean people negotiate militarization in their everyday lives The volume explores topics such as the US occupation of Haiti British West Indians in World War I the British naval invasion of Anguilla military bases including Chaguaramas Vieques and Guantamo the militarization of the police sex work and the military drug wars and surveillance calypso commentaries private security armies and border patrol operations **The Unfinished**
