Fearless Writing Multigenre To Motivate And Inspire:

Fearless Writing Tom Romano, 2013 Multigenre writing is an immersion in a big topic of personal importance I want students to taste such passionate immersion I want them to experience how that immersion combined with the possibility of multiple genres can awaken a boldness of expression in them Students' subjective experience with multigenre will affect their attitude toward writing It will affect your attitude toward teaching Tom Romano What does it mean to write fearlessly Tom Romano illustrates the power of multigenre papers to push students beyond the safety zone of narrative and exposition into a place where fact meets imagination and research meets creativity A place to try the untried Fearless Writing empowers students to leap into this personal multifaceted take on research writing by giving you specific strategies and practical ideas to help students Generate topic ideas Design research plans Develop core elements of a multigenre project Create innovative genres and golden threads of unifying elements While multigenre papers address many Common Core writing standards Tom's passionate response to both the strengths and weaknesses of the Common Core serves as a lightning bolt of awareness and a rallying cry for a writing curriculum of genre diversity Expand your notion of writing and teaching writing fearlessly Read sample chapters here **Intellectual Creativity in First-Year Composition Classes** Heidi Wall Burns, Michael

MacBride, 2016-10-12 Today's first year composition classrooms are largely reflective of the writing pedagogy that has been used for the last 200 years Unfortunately this methodology does not meet the research or writing needs of today's college and university students Burns and MacBride were determined to make their first year composition courses more relevant to their students and sought a way to revolutionize their syllabus to do so Building on the work of Tom Romano Nancy Mack Camille Allen Sirpa Grierson Melinda Putz and others Burns and MacBride set out to determine if a multigenre research project could better teach their students research writing and critical thinking skills than a traditional research based essay The findings of their semester long study indicated that not only does a MGRP teach these skills but it far surpasses a traditional essay in teaching engagement intellectual creativity and transferable writing skills Burns and MacBride demonstrate two different ways to integrate a multigenre research project into the college composition classroom *Virtual*
