**Women's Rights and Women's Lives in France, 1944-1968** Claire Duchen,1994 Claire Duchen explores women s everyday lives in France between the liberation and May 68 and considers the tensions created by competing visions of womanhood French Connections Claire Duchen,1987 Although the women s liberation movement is very much an international phenomenon it has developed very differently in different countries Debate and exchange between feminists is often difficult not only because of language barriers but also because things do not always make sense when removed from their particular social political and cultural contexts The feminist movement in France has been too often regarded as interesting but largely irrelevant concerned more with reflection and theory than with seeking practical solutions to concrete problems In this anthology Claire Duchen attempts to change that image demonstrating that although the French movement is indeed characterized by much intellectual debate it shares the same concerns and struggles of feminists everywhere The first part of the volume contains selections on the French Women s Liberation Movement mouvement de lib ration des femmes known as the MLF itself reflecting on its history character and prospects for the future The second part contains selections on four areas of debate that have both theoretical and practical dimensions psychoanalytic feminism heterosexuality and lesbianism women s difference and the relationship between feminism and the political Left The book contains fifteen contributions from eight important writers Fran oise Collin Christine Delphy Catherine Deudon Marie Jo Dhavernas Colette Guillaumin Annie Leclerc Fran oise Picq and Elaine Viennot **Women's Rights and Women's Lives in France 1944-68** Claire Duchen,2024-11-01 Women s Rights and Women s Lives In France explores the everyday experiences of women between the liberation and May 1968 In 1945 French women believed that a new era was beginning for them in which they had finally won equality the right to vote in 1944 equal pay and access to education and employment But the new Republic considered that women s main role was that of motherhood Competing visions of women s place had concrete implications for women s lives influencing work politics and ideals of femininity Working from a wide range of sources including women s magazines prescriptive literature political pamphlets fiction and memoirs and government reports Claire Duchen follows the debates concerning women through twenty years and grounds them in the changing social reality of postwar France From Revolution to Ethics Julian Bourg,2007-05-14 A bold history of French intellectual life and the legacies of 1960 s radicalism *French Feminisms* Gill Allwood,2012-09-10 In this text Gill Allwood explores theories of masculinity emerging from French feminist theories of gender and from French feminist practice concerning violence towards women highlighting both the commonalities and the specificities of the French case She discusses the particular

concern of French theorists with seduction their rejection of the term gender and the centrality of the difference debate In the first part of the book Allwood separately examines feminist theories of gender and sexual difference and the problem of male violence She goes on to consider the developments which are taking place on the borderline between the two examining the way in which these developments have contributed to an understanding of masculinity Readdressing problems and debates that will be familiar to English speaking readers the text exposes cultural differences and similarities in the ways in which these problems are approached and it provides a detailed account of the changes in both feminist action and theory in France in recent years This analysis of feminism in France should be of interest to student and scholars in French studies European studies gender studies and cultural studies

**Only Paradoxes to Offer** Joan Wallach Scott, 2009-06-30 When feminists argued for political rights in the context of liberal democracy they faced an impossible choice On the one hand they insisted that the differences between men and women were irrelevant for citizenship On the other hand by the fact that they acted on behalf of women they introduced the very idea of difference they sought to eliminate This paradox the need both to accept and to refuse sexual difference in politics was the constitutive condition of the long struggle by women to gain the right of citizenship In this new book remarkable in both its findings and its methodology award winning historian Joan Wallach Scott reads feminist history in terms of this paradox of sexual difference Focusing on four French feminist activists Olympe de Gouges who wrote the Declaration of the Rights of Woman and Citizen during the French Revolution Jeanne Deroin a utopian socialist and candidate for legislative office in 1848 Hubertine Auclert the suffragist of the Third Republic and Madeleine Pelletier a psychiatrist in the early twentieth century who argued that women must virilize themselves in order to gain equality Scott charts the repetitions and variations in feminist history Again and again feminists tried to prove they were individuals according to the standards of individuality of their day Again and again they confronted the assumption that individuals were men But when sexual difference was taken to be a fundamental difference when only men were regarded as individuals and thus as citizens how could women also be citizens The imaginative and courageous answers feminists offered to these questions are the subject of this engaging book

**French Feminist Theory** Luce Irigaray, Julia Kristeva, Hélène Cixous, Alice Jardine, 1981 *French Feminist Theory (II)* Joan Nordquist, 1993 **Daughters of 1968** Lisa Greenwald, 2019-09-01 Daughters of 1968 is the story of French feminism between 1944 and 1981 when feminism played a central political role in the history of France The key women during this epoch were often leftists committed to a materialist critique of society and were part of a postwar tradition that produced widespread social change revamping the workplace and laws governing everything from abortion to marriage The May 1968 events with their embrace of radical individualism and antiauthoritarianism triggered a break from the past and the women's movement split into two strands One became universalist and intensely activist the other particularist and less activist distancing itself from contemporary feminism This theoretical debate manifested itself in battles between women and organizations on the streets and in the courts The history

of French feminism is the history of women's claims to individualism and citizenship that had been granted their male counterparts at least in principle in 1789. Yet French women have more often donned the mantle of particularism, advancing their contributions as mothers to prove their worth as citizens than they have thrown it off claiming absolute equality. The few exceptions such as Simone de Beauvoir or the 1970s activists illustrate the diversity and tensions within French feminism as France moved from a corporatist and tradition-minded country to one marked by individualism and modernity.

**French Feminism** Danielle Haase-Dubosc, 2003-04-08 Feminism in France has a long and continuous history which stretches right back to the Middle Ages where one finds texts by women denouncing inequality and the unjust subordination of their sex. In the late sixties and early seventies of this century, however, one finds a radical break with the feminism that preceded it. Marked by a libertarian culture influenced by Marxism, socialism, and psychoanalysis, the feminism of the 1970s rejected the reformist and legal vision of women's emancipation, politicised the private sphere, and demanded social and political equality. This remarkable anthology of 35 texts, freshly translated for this volume, vividly maps the terrain of French feminism in its contemporary context from the 1970s onwards. Bringing together the seminal writings of both scholars and activists, the volume will help readers to grasp the questions, the challenges, and the progress of reflection. The essays are divided into seven sections: The Women's Liberation Movement in France; Women and Creativity; Writing History; Rewriting History; Race; Class; Gender; Legal Bodies; Women's Bodies; Occupying; Capturing Political Space; Feminists Defetishize Theory; Feminist Mappings. Overall, this absorbing volume gives voice to the extraordinary range of contemporary French feminism. Each section is preceded by an introduction which places the contributions in their material and social contexts to show how French feminism has evolved in response to concrete struggles and institutional constraints, as much as to sophisticated intellectual discourse. Given its unique comparative framework and wide-ranging coverage, this volume will attract the attention of students and scholars in the fields of feminism, gender, and women's studies, sociology, history, literature, anthropology, and philosophy.

**Shifting Scenes** Alice Jardine, Anne M. Menke, 1991 This now classic work is the only definitive collection available of interviews with leading French women intellectuals.

**Daughters of 1968** Lisa Greenwald, 2018

**New French Feminisms** Elaine Marks, Isabelle De Courtivron, 1981 This important anthology provides us with translations of texts from women's liberation movement in France, an excellent starting place.

*Sex In Question* Lisa Adkins, Diana Leonard, 2004-08-02 First published in 1996. Since the publication of Simone de Beauvoir's *The Second Sex*, French feminist thought has informed and shaped the on-going debates in the English-speaking world. This book introduces English speakers to the work of a major group of French feminists, those de Beauvoir herself supported.
