**Reform in the Progressive Era** J. Michael Hogan, 2003 The Progressive Era witnessed a rhetorical renaissance that changed how Americans talked about politics and society Marking a clean break from the rhetoric of the Gilded Age the discourse of progressivism represented a new common language of political and social analysis that was reform oriented moralistic and optimistic about the future Progressives shared a strong faith in public opinion and they revitalized the public sphere through a variety of initiatives to encourage public discussion and empower the citizenry Whatever their differences Progressives believed that a democratic public properly educated and deliberating freely represented the best hope for America in the modern age Rhetoric and Reform in the Progressive Era presents twelve major studies of the discourse of progressivism ranging from fresh interpretations of Theodore Roosevelt and Woodrow Wilson to new studies of the working class eloquence of Eugene Debs the debate between W E B Du Bois and Marcus Garvey and the peace advocacy of Jane Addams Other studies in this volume explore the rhetorical origins of the conservation movement and professional journalism chart the progress of the woman suffrage crusade and show how Progressive social thinkers planted the seeds of the Ku Klux Klan's resurgence in the 1920s Taken together these essays display the remarkable diversity and vitality of the Progressive rhetorical renaissance They show how robust democratic speech became a distinguishing characteristic of the Progressive Era

*Brexit Geographies* Mark Boyle, Ronan Paddison, Peter Shirlow, 2020-06-29 This comprehensive volume explores the political social economic and geographical implications of Brexit within the context of an already divided UK state It demonstrates how support for Brexit not only sharpened differences within England and between the separate nations comprising the UK state but also reflected how austerity politics against which the referendum was conducted impacted differently with north and south urban and rural becoming embroiled in the Leave vote This book explores how as the process of negotiating the secession of the UK from the EU was to demonstrate the seemingly intractable problem of the Irish border and the need to maintain a soft border provided a continuing obstacle to a smooth transition The authors in this book also explore various other profound questions that have been raised by Brexit questions of citizenship of belonging of the probable impacts of Brexit for key economic sectors including agriculture and its meaning for gender politics The book also brings to the forefront how the UK was geographically imagined a new lexicon of left behind places citizens of somewhere and citizens of nowhere conjuring up new imaginations of the spaces and places making up the UK This book draws out the wider implications of Brexit for a refashioned geography It was originally published as a special issue of the journal *Space and Polity*

*Un-Veiling Dichotomies* Giorgia Baldi, 2021-09-27 This book analyzes the implication of secular liberal values in Western and human rights law and its impact on Muslim women It offers an innovative reading of the tension between the religious and secular spheres The author does not view the two as binary opposites Rather she believes they are twin categories that define specific forms of lives as well as a specific notion of womanhood This divergence from the usual dichotomy opens the doors for a reinterpretation of secularism in contemporary Europe This method also helps readers to view the study of religion vs secularism in a new light It allows for a better understanding of the challenges that contemporary Europe now faces regarding the accommodation of different religious identities For instance one entire section of the book concerns the practice of veiling and explores the contentious headscarf debate It features case studies from Germany France and the UK In addition the analysis combines a wide range of disciplines and employs an integrated comparative and inter disciplinary approach The author successfully brings together arguments from different fields with a comparative legal and political analysis of Western and Islamic law and politics This innovative study appeals to students and researchers while offering an important contribution to the debate over the role of religion in contemporary secular Europe and its impact on women s rights and gender equality
