Feast Why Humans Share Food:

Feast Martin Jones, 2008-04-10 Is sharing food such an everyday unremarkable occurrence In fact the human tendency to sit together peacefully over food is actually rather an extraordinary phenomenon and one which many species find impossible It is also a phenomenon with far reaching consequences for the global environment and human social evolution So how did this strange and powerful behaviour come about In *Feast* Martin Jones uses the latest archaeological methods to illuminate how humans came to share food in the first place and how the human meal has developed since then From the earliest evidence of human consumption around half a million years ago to the era of the TV dinner and the drive through diner this fascinating account unfolds the history of the human meal and its huge impact both on human society and the ecology of the planet

To Eat or Not to Eat Meat Charlotte De Backer, Maryanne L. Fisher, Julie Dare, Leesa Costello, 2019-08-20 Increasingly people are shifting to vegetarian plant based or vegan diets This shift is having profound effects on our social interactions and this is the focus of this book Becoming a vegetarian or vegan involves more than just changing your diet It can change how you socially and emotionally connect with family friends and the broader community shape your outlook on life and open up new worlds and contacts It can also lead to uncomfortable situations if dietary choices involving a rejection of meat are read by others as an ethical and moral judgement on mainstream dietary choices This book adopts an innovative narrative approach and draws on stories across the globe to consider how the food choices we make in our everyday lives can lead to complex and sometimes life changing social consequences The narratives cover a range of topics including the moral reasons behind some individuals decision to change their diets the religious or ecological considerations and the potential health and social ramifications To date the social consequences of selecting a plant based diet have been sorely overlooked in favour of texts that have documented the benefits of such diets and usually focus on health animal welfare and or environmental issues with the aim of persuading readers to give up meat and change to a healthy and or sustainable diet Cultural studies texts considering vegetarianism or veganism have typically targeted academic audiences with analyses of how identity is constructed through food and dietary choices In contrast this book offers a unique window onto how our social lives are implicated in our food choices and is critical in understanding the importance of diet as embedded in complex social processes

Food and World Culture Linda S. Watts, Kelty Clark-Mahoney, 2022-08-23 This book uses food as a lens through which to explore important matters of society and culture In exploring why and how people eat around the globe the text focuses on issues of health conflict struggle contest inequality and power Whether because of its necessity pleasure or ubiquity the world of food and its lore proves endlessly fascinating to most people The

story of food is a narrative filled with both human striving and human suffering. However many of today's diners are only dimly aware of the human price exacted for that comforting distance from the lived world realities of food justice struggles. With attention to food issues ranging from local farming practices to global supply chains this book examines how food's history and geography remain inextricably linked to sociopolitical experiences of trauma connected with globalization such as colonization conquest enslavement and oppression. The main text is structured alphabetically around a set of 70 ingredients from almonds to yeast. Each ingredient's story is accompanied by recipes. Along with the food profiles the encyclopedia features sidebars. These are short discussions of topics of interest related to food including automats diners victory gardens and food at world's fairs. This project also brings a social justice perspective to its content weighing debates concerning food access equity insecurity and politics.

Well known for the Early Anglo Saxon settlement previously excavated on Rookery Hill and its impressive pre Conquest church Bishopstone has entered archaeological orthodoxy as a classic example of a Middle Saxon Shift. This volume reports on the excavations from 2002 to 2005 designed to investigate this transition with the focus on the origins of Bishopstone village. Excavations adjacent to St Andrews churchyard revealed a dense swathe of later Anglo Saxon 8th to late 10th early 11th century habitation including a planned complex of timber halls and a unique cellared tower. The Cool Knife Thomas O. Beidelman, 1997. In *The Cool Knife* T O Beidelman analyzes in rich detail the ritual imagery and symbolism of Kaguru initiations relating them to other Kaguru ceremonies as well as to more routine daily activities. He argues that initiation educates boys and girls in their gender roles and constructs an ethnic identity that is assuming greater importance to the Kaguru as outside pressures threaten to undermine their culture. The first ethnography that examines both male and female initiations in an African society in equal detail the book describes how Kaguru elders teach novices to value ambiguity and wordplay to understand the body and its appetites and to practice a complex etiquette that regulates daily behavior. Built up from the manifold experiences and cues of everyday Kaguru routine the ritual provides initiates with a

unifying ethnic vision that allows for multiple perspectives and interpretations The companion to an earlier study that charted the scope and character of Kaguru moral imagination The Cool Knife explores the broader implications of rituals that transfer sexual and cultural knowledge from one generation to the next Linking Kaguru concepts of gender and culture to the writings of such Western philosophers as Rousseau Montaigne Durkheim Mauss de Beauvoir and van Gennep it provides penetrating insights into the role of education and initiation in any society
