what it means to be a female detective *Engendered Death* Joseph W. Laythe, 2011-12-16 *Engendered Death* Pennsylvania Women Who Kill is an historical and interdisciplinary study of women who kill in Pennsylvania from the 18th century to the present. It is not an examination of what motivates women to kill, although the reader may deduce that from the case studies included. Instead, it is an examination of how society perceives women who kill and how the gender lens is applied to them throughout the legal process in the media and in the courtroom. What makes this work particularly unique is its combination of both scholarly analysis and narrative case studies. As such, it will appeal to both the scholar and the reader of true crime non-fiction. If we are to recognize the complex variables at play in all criminal offenses, we will need to understand that the laws of a community, its social values, its politics, economics, and even geography play a factor in what laws are enforced and against whom they are enforced. The decision to define and label certain behaviors and certain people was based on social, political, and economic considerations of each community. Thus, the commission of murder by a woman in Arizona may have a variety of factors associated with it that are not present in the case of a woman who murdered her husband in Maine. This study, in part because of the volume of cases and in part to limit the variables affecting the cases, has limited its scope of women killers to the state of Pennsylvania. Pennsylvania is the ideal state to study because of its long and stable legal and political traditions, its historically diverse population, and the large number of newspapers that will help us gauge the public's view of women and women who kill. By limiting our scope to one state, we know that the legal definitions are fairly consistent for all of the women during a certain period, and we can more easily identify the shifts in social values regarding women and homicide.

Criminal Justice in America Carla Lewandowski, Jeff Bumgarner, 2020-11-17 This authoritative set provides a comprehensive overview of issues and trends in crime law enforcement, courts, and corrections that encompass the field of criminal justice studies in the United States. This work offers a thorough introduction to the field of criminal justice, including types of crime, policing, courts, and sentencing; landmark legal decisions; and local, state, and federal corrections systems and the key topics and issues within each of these important areas. It provides a complete overview and understanding of the many terms, jobs, procedures, and issues surrounding this growing field of study. Another major focus of the work is to examine ethical questions related to policing and courts, trial procedures, law enforcement, and corrections agencies and responsibilities, and the complexion of criminal justice in the United States in the 21st century. Finally, this title emphasizes coverage of such politically charged topics as drug trafficking and substance abuse, immigration, environmental protection, government surveillance, and civil rights, deadly force, mass incarceration, police militarization, organized crime, gangs, wrongful convictions, racial disparities in sentencing, and privatization of the U.S. prison system.

Draculas, Vampires, and Other Undead Forms John Edgar Browning, Caroline Joan "Kay" S. Picart, 2009-04-08 Since the publication of *Dracula* in 1897, Bram Stoker's original creation has been a source of inspiration for artists, writers, and filmmakers. From Universal's early black and white films and Hammer's Technicolor representations that followed, iterations of *Dracula* have been

cemented in mainstream cinema This anthology investigates and explores the far larger body of work coming from sources beyond mainstream cinema reinventing Dracula Draculas Vampires and Other Undead Forms assembles provocative essays that examine Dracula films and their movement across borders of nationality sexuality ethnicity gender and genre since the 1920s The essays analyze the complexity Dracula embodies outside the conventional landscape of films with which the vampire is typically associated Focusing on Dracula and Dracula type characters in film anime and literature from predominantly non Anglo markets this anthology offers unique perspectives that seek to ground depictions and experiences of Dracula within a larger political historical and cultural framework

Dangerous Women Larry A. Morris, 2008 Though men are still most often the perpetrators of violent assault and child molestation more girls and women are becoming dangerous criminals Blending humanity with scientific rigor this book draws readers into the direct experiences of this alarming new demographic

Women and Nazis Wendy Adele-Marie Sarti, 2011 War atrocities cannot be segregated by gender and gender cannot be ignored when analyzing the crimes that culminated in the Third Reich s attempt to eradicate European Jewry and other suspect nationalities and ethnic groups such as the Roma Despite the Nazis masculine oriented policies towards Aryan German women many women sought ways to become involved in Hitler s party and government Professor Sarti s remarkable research discusses the women who not only agreed with the Nazi Weltanschauung but took an active part in mass genocide Scholarship has tended to fundamentally overlook or dismiss the actions of this group Sarti brings then to the fore of her remarkable investigation into their numbers and their influence Professor Sarti discusses the broad narrative of women as perpetrators no as unwilling accomplices of brutal genocidal acts She also studies a number of individuals such as the nineteen in the Belsen trial of 1945 and others brought to book by the German authorities in postwar West Germany In reality far fewer women were even processed for trial than men and this in the face of research that points to a much higher number of women guards and supervisors than the Allied forces acknowledged This work based on primary sources is sure to be of great interest to students of the Holocaust genocide as a modern phenomena as well as scholars involved in women and gender studies

Chronicles ,1995 Trouble and Strife ,1996 **Constructing the Monster** Desiree Capstick,2012 It could happen to you This dramatization is a key trait of western news gathering bad news makes good news The personification of crime news results in the presentation of events Events will focus on the emotional personal and human aspect of the story often resulting in context background and analysis being ignored Why News that is memorable is one which can arouse the readers emotions while at the same time conveying an underlying tone of moral authority We usually associate the type of crime spree that inspires serial killing as the work of a deranged man and a majority of the most notorious serial killers of the twentieth century have been male Yet there are a few women who have defied those stats with horrific killings bringing an added level of shock Therefore the act of a female serial killer plays into a theater of crime through Anglo media coverage Drawing on archaic literary terms Medusa Angel of Death Countess Dracula Siren etc to create expressions of blame for female serial killers This study examines the twentieth century tabloid newspaper the Daily Express Focusing on its construction of the female serial killer
