**Material Feminisms: New Directions for Education** Carol Taylor, Gabrielle Iverson, 2018-02-02 Material Feminisms New Directions for Education provides a range of powerful theoretical and innovative methodological examples to illuminate how new material feminism can be put to work in education to open up new avenues of research design and practice It poses challenging questions about the nature of knowledge production the role of the researcher and the critical endeavour arising from inter and post disciplinarity Working with diffractive methodologies and new materialist ecological epistemologies the book offers resources for hope which widen the scope for how educational problems are interrogated and provides a political counter movement to neo positivist outcomes based approaches within education Inspired by writers such as Barad Bennett and Deleuze and Guattari the book makes a radical break with cognitive dualist and universal conceptions of human subjectivity and intelligence in education By taking its starting point as the co constitutiveness of discourse materiality corporeality and place the book foregrounds educational practices as material enactments of multiple non linear entangled affective and relational forces It offers new insights into how gender class and ethnicity are constituted in and by material assemblages that are often submerged or unseen This book is an essential starting place for those intrigued by what new theoretical accounts of materiality posthumanism and affect can offer educational research Diffractive methodologies challenge readers to take a fuller range of actors into account than in objective humanist methodologies and in so doing to pay closer attention to what data is It invites researchers to engage with long standing feminist concerns about power and knowledge production in research processes This book was originally published as a special issue of Gender and Education

**Posthuman Research Practices in Education** Carol Taylor, Christina Hughes, 2016-04-08 How do we include and develop understandings of those beyond the human aspects of the world in social research Through fifteen contributions

from leading international thinkers this book provides original approaches to posthumanist research practices in education It responds to questions which consider the effect and reach of posthuman research

**Higher Education, Leadership and Women Vice Chancellors** P. Burkinshaw, 2015-05-26 Why are there so few women vice chancellors in UK higher education In this book Paula Burkinshaw explores the contemporary conversation around the missing women at the top across UK society through in depth interviews with the hitherto silent voices of women vice chancellors These women have successfully negotiated with and navigated the gendered leadership cultures of higher education throughout their careers and speak of the masculine communities of their workplaces Advocating the need to achieve a critical mass of women at the top this book suggests there is still much to be done in the higher education sphere

**Asian Genders in Tourism** Catheryn Khoo-Lattimore, Paolo Mura, 2016-09-15 While gender research in tourism has become increasingly important within Western academic circles little has been written from an Asian perspective This book is the first to address this knowledge gap and to fully explore Asian gendered identities and tourism The chapters reflect upon the role of tourism in producing reiterating and resisting existing gendered structures of power in Asia The authors attempt to reconcile both Asian and Western perspectives on gender using their own personal experiences of understanding and negotiating Western and Asian identities and practices The book paves the way for important reflections about the ontological and epistemological meanings of Asia gender and tourism It is an important resource for researchers from a range of disciplines including tourism leisure studies Asian studies and feminist and gender studies as well as for professionals working in the tourism industry

*New Books on Women and Feminism* , 2015 *Feminist Collections* , 2013

**Handbook of Feminist Research** Sharlene Nagy Hesse-Biber, 2007 The topic feminist research has too often been neglected in standard research methods books The Handbook of Feminist Research represents the establishment of a new tradition or paradigm in viewing how the research process is implemented Feminist researchers bring unique epistemological and methodological perspectives to the research process Feminists approach to methodology allows for new types of questions about women s lives and those of other ed marginalized groups to be addressed within their respective fields of research This Handbook stresses the interconnections between epistemology methodology and methods They are not de linked from each other but work together in dynamic ways to produce new knowledge and this openness itself is also characteristic of how feminist researchers approach their work Feminists engage synergistically with all three aspects of the research process epistemology methodology and method Through a synergistic connection between these elements of research epistemology methodology and method we find that feminist research often shapes new research endeavors that are greater than the sum of their parts In other words while traditional research employs these components of research the synergistic engagement of these components in feminist research questions the status quo aiming to raise our consciousness about how we do research Looking at the selections provided in this Handbook we are able to look at feminist research its implementation of synergistic use of epistemology

methodology and method and the resulting qualities of feminist research in practice      **Sociological Abstracts** Leo P. Chall, 2004 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers

Introduction to Social Research presents the essential elements of both qualitative and quantitative approaches for

conducting empirical research in the social sciences

**Black Women's Health** Yvonne Wesley,2009 Women have always

played a unique role in society Seen as the nucleus of the family textbooks about women have focused on their history in

society workplace rights and the psychology of women There have even been textbooks that look at women in politics

Representing less than 7% of the U S population textbooks about the health of Black women are scarce There are many

books by and about Black women However a textbook that guides the learning experience of students about the health of

Black women is rare This Book provides qualitative and quantitative truth about Black women and their health It offers a look

at how social dimensions create layers of inequality that structure the relative position of Black women Although not referred

to as evidenced based practice an underlying theme of this book bridges the gap between academic theory and action on the

part of health care practitioners policy makers and researchers This new and important book gives a broad look at the

problems that African American women face both mentally and physically as related to health care It also describes ways that

practitioners researchers and the society as a whole can aid in alleviating the issues that African American women face on a

daily basis The book proposes several ways in which to achieve this goal
